From March 2025 until OMB’s apportionment database was again made publicly available in August 2025, rationales for footnotes in the following TAFS were not provided. Such rationales are now provided below pursuant to section 204 of division E of the Consolidated Appropriations Act, 2023 (Public Law 117-328).

[Rationale: Footnote specifies the purpose(s) for which the funds are available to be obligated.]

- TAFS 024-X-8135, footnote A1
- TAFS 091-2025-2026-1100; footnote A3

[Rationale: An agency spend plan or other documentation is necessary to better understand how the agency intends to obligate some or all of the apportioned funds.]

- TAFS 091-2025-2026-1100; footnotes A4 and A5

The apportionments (including any footnotes) associated with these rationales remain unchanged. These rationales have no legally binding effect on the underlying apportionments.
