

Commodity Supplemental Food Program (CSFP): Apportionment Row 6011

The Agriculture and Consumer Protection Act of 1973 (P.L. 93-86), as amended, mandates CSFP State agencies receive an administrative grant per assigned caseload slot for administrative costs incurred by the State agency and local agencies in the operation of CSFP. Per section 5 of the Act, the grant per assigned caseload slots is adjusted each fiscal year to reflect inflation, based on the State and Local Government Price Index. CSFP caseload is assigned on a calendar year basis in accordance with CSFP regulations at 7 CFR Part 247. Program regulations (7 CFR 247.21) set the annual formula used to determine base caseload which is equal to the highest of (1) average monthly participation in the prior fiscal year or (2) average monthly participation in the last quarter of prior fiscal year.

Below is a summary of CSFP data showing foods that have been purchased or sent to AMS for procurement to date. The total amount of funds obligated is broken down by CSFP Food Package category. We expect purchase patterns for the remainder of the fiscal year to follow a similar trend provided that funds are made available to meet solicitation requirements and vendors are able to fill orders. Generally CSFP foods are purchased on a quarterly basis. Limited funding on a monthly versus quarterly, or annual (after an appropriation), basis may impact the ability to fulfill all orders necessary to meet the full food package requirements.

CSFP FY25 Year to Date Purchases by Food Package Category

Cereal	\$26,714,948.18
Cheese	\$20,555,230.32
Fruit/Juice	\$36,896,281.22

¹Funding allowed per The Agriculture and Consumer Protection Act of 1973 (PL 93-86)

The Emergency Food Assistance Program (TEFAP): Apportionment Row: 6019

Section 204 of The Emergency Food Assistance Act of 1983 (7 U.S.C. 7515) authorizes up to \$100 million each fiscal year for direct and indirect costs for TEFAP States related to the processing, storage, transporting and distribution of TEFAP foods to eligible recipient agency. The USDA is required to distribute funding to States in accordance with section 214, in which funding for TEFAP is allocated among States according to a formula that accounts for poverty and unemployment levels within each State. Section 214(a)(1) of the Act requires that 60 percent of each State's allocation be based on the number of people with incomes below the poverty level within the State; and Section 214(a)(2) requires that the remaining 40 percent be equal to the percentage of the nation's unemployed persons within the State.

The appropriated \$80 million for TEFAP administrative costs has been allocated to States based on the formula in the Emergency Food Assistance Act (noted above).

¹ Allowanced in accordance to The Emergency Food Assistance Act of 1983

Farmers Market Nutrition Program (FMNP): Apportionment Row: 6020

The Child Nutrition Act of 1966 (P.L. 117-362), establishes a formula for determining the amount of the grant to award to each FMNP State. Per the Act, States with an approved plan receive funding in accordance with the number of recipients proposed to participate in FMNP in the fiscal year. Of the total funding, no more than 17 percent of the funds can be provided as administrative funds.

The FMNP funding allocations in the attached have been allocated to States based on the formula in the Child Nutrition Act of 1966.
