

	Carryover	Anticipated Collections or Recoveries	Notes
			FNS purchased smaller amounts of food at the end of FY25 to be delivered to CSFP in the beginning of FY26 to avoid filling the current contracted warehouses with food that may ultimately need to be shipped to a new location upon contract award. Relatedly, USDA has remained lean on safety inventory until the warehouse contracts are final and will need to do larger purchases with the carryover funding to replenish.
CSFP Commodities	\$ 80,000,000	\$ 6,000,000	
<i>Senior Farmers' Market Nutrition Program</i>	\$ 68,684	\$ 3,100,000
